

## HiWi Job – Webpage Creation and Management - 32 hrs/ month

We are looking for a motivated student assistant (Hilfswissenschaftler, HiWi, 32 hours/month) to support our research group in developing and maintaining a modern, attractive, and user-friendly webpage. The tasks include designing and updating website content, improving the webpage's visual appearance and structure, integrating research highlights, publications, and group activities, and assisting with basic web development and maintenance. Good written communication skills in both English and German are required. Previous knowledge or experience in website design and web development is an advantage.

The position is available to start as soon as possible and is initially offered for 2 months.

If you are interested, please contact Dr.Sreedev Sreekumar.
